

THE BLACK AGENDA

By Nathan Hare and Julia Hare

This is a highly readable but thoughtful booklet containing the popular report called “The Hare Report: State of Black Race,” first published in San Francisco’s Sun Reporter.

Also, “Black Psychologists Define the New Agenda for the Black Millennium,” plus revealing excerpts from interviews the Hares conducted in studies of black male/female relationships, as well as updated portions of articles by and about the Hares in London’s *Afrikan Business and Culture Magazine*, as well as the authors’ brand-new “Reveille for a Resurrection: A Wake-up Call,” to “*The People That Walk in Darkness.*”
